

Financial Protection

When booking with us you are fully protected for both the initial deposit and final balance in the unlikely event of our insolvency, by an insurance policy called Bond Plus. If you book a package which includes the ferry then this protection is automatically included under an EU directive. This is not required for villa rental only but for your own protection we have decided to add it to all these reservations at an additional cost of £10.

Should you not require this cover it can be removed at your request.
